Visible and Relevant with Titan

The Canby Center needed an effective way to communicate with benefactors. By successfully presenting the non-profit organization to sponsors, The Canby Center would be able to seamlessly receive donations.

The organization had previously tried several other form builders, paid a great deal of money, and never achieved the results they hoped for. This was until Titan came along.

Robust Digital Experiences for Donors

The Canby Centre turned to Titan to brainstorm Salesforce solutions for immediate implementation. The Titan solution included an automated donation kiosk form that provided bi-directional data integration with the organization's Salesforce system.

Now customers can automatically send donations through the kiosk at their convenience. This Titan solution has been a time-saver for The Canby Center by eradicating outdated, manual workflows.
